# Rainplan Wins 2023 US Water Prize

Tucson, AZ—November 14, 2023— Today, the US Water Alliance proudly revealed the 2023 US Water Prize winners, with Rainplan awarded the Outstanding Private Sector prize. Winners were recognized for their innovation in water management and sustainability and are pivotal figures driving positive change in the face of national water and climate challenges.

The One Water champions awarded this year stand out for their dedication to developing scalable approaches to water solutions. Rainplan, honored as the Outstanding Private Sector Organization, is acknowledged for its role in demystifying and simplifying the adoption of green infrastructure. The online marketplace empowers stakeholders by providing a centralized platform for connection and collaboration.

"At a time when communities are feeling the brunt of water-related stresses, it is critical to shine a light on the One Water champions who have dedicated themselves to innovation and developing scalable approaches to One Water solutions", stated Mami Hara, CEO of the Alliance.

Yvonne Forrest, Chair of the US Water Alliance Board, expresses gratitude to all candidates and celebrates the diversity and ingenuity of this year's distinguished awardees, including Rainplan.

The complete list of 2023 US Water Prize winners includes:

- Outstanding Cross-Sector Partnership: Corvias Infrastructure Solutions and Prince George's County, MD: The Clean Water Partnership
- Outstanding Public Sector Organization: Orange County Water District and Orange County Sanitation District
- Outstanding Private Sector Organization: Rainplan
- Outstanding Nonprofit Organization: DigDeep's Colonias Water Project
- Outstanding Public Official: Pittsburgh City Councilperson Erika Strassburger
- Outstanding Rising One Water Leader: Rob Woodman
- Outstanding Artist: Maritza Alvarez
- Outstanding One Water Communication: waterloop
